### **Listen to Spoken Articles, Podcasts**

Liberty Stop is proud to announce that you can now listen to some of our new articles right here on the site. For example, check out our article [Government Health Care Erodes Privacy, Reduces Quality, Increases Costs](#). Go to the end of the article and look for the small media player. Simply click on the play button and you will be able to listen to a spoken version of the article. The technology isn't perfect, but it is very good.

You can also download podcasts of articles. Currently the links to podcasts are featured on the bottom, right-hand side of our site, listed under the title "podcast". You can obtain the Liberty Stop podcast through [Odiogo](#) or [Podnova](#). An RSS feed of some of our Odiogo podcast and page content is available [here](#).

We hope you enjoy the spoken articles and podcasts. Thanks for your continued support of Liberty Stop.
