## **We're the Government and You're Not**

From the Department of Homeland Propaganda: We're the Government and You're Not. Finally, a guide for serfs to know how to be good citizens. You already know the answers:

1. Pay your taxes.
2. Spend your money. Don't save.
3. Don't cause problems. Support your government and don't ask any embarrassing questions.

All that is missing is President Obama telling citizens he won the elections, so shut up while Congress shoves Health Care Reform down our throats.

Now be a good, servile little peasant and watch the short film below.
